Did You Know?

Sugar-Free Prenatal Multivitamin Gummies with DHA & Zinc

Although a healthy diet is the best way to get the vitamins and minerals needed, some key nutrients might fall short. For women who are pregnant or plan on conceiving, most healthcare professionals recommend taking specific prenatal vitamins & minerals that may reduce the risk of complications, for both the mother and the developing fetus, as well as, help a mother go complete the full term.

Mason's Sugar-Free Prenatal gummies provide essential nutrients needed. These pectin-based gummies contain the necessary amounts of vitamins A, B's, C, D and E, along with Zinc and DHA fatty acid derived from algae oil to provide the essential support women need before, during and after pregnancy. Suitable for vegetarians.
